Working Visit: Kai Golan Hashiloni from RUNI visits UHH

26–29.08.2025

Kai Golan Hashiloni from the Intellexus team at RUNI visited the UHH team for a working visit from August 26–29, 2025. The main goals of the visit were to enhance the RUNI–UHH collaboration and deepen mutual understanding of the challenges ahead and the capabilities and solutions available. In addition to discussions about the long-term research and activities plan, the working sessions focused primarily on (1) preparations for the upcoming Hackathon (September 13–18, 2025), and (2) planning the panel for the IATS 2026 conference, including topic selection and preparation of initial abstract drafts.
